Key findings include: □ Most literature addressing counter-terrorism, counter-insurgency, and/or countering violent extremism does not include empirical evaluations of specific policies. □ A majority of studies with evaluation find that use of coercive methods such as repression (especially when used exclusively and indiscriminately) tend to produce backlash effects. □ Analysis of denial strategies focus on the hardening of targets.

Surveying the Literature on Counter and

However, if we examine insurgency and guerilla warfare, specific differences emerge. A key difference is that an insurgency is a movement - a political effort with a specific aim. This sets it apart from both guerilla warfare and terrorism, as they are both methods available to pursue the goals of the political movement.
