A trust is a legal document that creates a virtual container for money and property. These assets are managed by a trustee (an institution or person) for the benefit of another (the beneficiary). The person who sets up the trust and funds is called a grantor, trustor, or donor. Once ownership of an asset is transferred to the trust, that asset belongs to the trust itself, not to the trustee.

Common Types of Trusts - FindLaw

In other words, if a standard of living used to cost \$100,000, it can cost \$200,000 or more by the time that you enter into your 80's or 90's.
